

## HERE IS WHERE THE PEOPLE ACT

Spring Elections in Progress Today in Many of the States.

## FIGHT OF BALLOTS

Hot Contest on in Milwaukee, Chicago, and Other Cities in the West.

## DOUBT OVER RESULTS

Milwaukee, Wis., April 1.—The election in this city is passing off today without any sensational features despite numerous petty fights throughout the various wards. The indications are that there will be a full vote. Up to noon there were over 26,000 votes cast which is 2,000 greater than two years ago but this is accounted for by the taking in of Silver City and another suburb.

The republicans claim this as a good sign for their cause, while the democrats feel just as confident. The betting still remains at odds of \$1,000 to \$500 on Rose. Charlie Pfister is betting heavily, his agents being on the lookout for odds. The general impression seems to favor the election of Rose. There is also a feeling that Judge Tarrant will be re-elected.

Milwaukee, April 1.—The campaign for the city election closed last night after a battle of over two weeks, and today the voters of the city will cast their votes for mayor, city comptroller, city treasurer, city attorney, two aldermen from each of the twenty-three wards, justices of the peace and constables in three districts and a circuit judge. The towns and cities in the county will also select officers. The polls in Milwaukee will open at 6 o'clock a. m. and close at 7 p. m.

It is believed by the managers of the campaign for Mayor Rose, C. H. Anson and Howard Tuttle that there will be one of the largest votes ever cast in Milwaukee recorded when the returns come in this evening. The estimate is between 58,000 and 60,000. The tickets in the field are republican, democrat and social democrat for city offices and independent candidates for judge and other positions.

The campaign has been the most remarkable in the course of many years. The greatest confidence is expressed by both republicans and democrats in the election of the candidate of either. The social democratic vote, while considered a formidable element, is said by one side to be drawn from the other and vice versa. It is the common belief however, that if the social democrats poll anywhere near the vote they claim it will simply be an incident in a landslide for Major Anson.

Elections in Chicago

Chicago, April 1.—Ward elections are being held throughout the city of Chicago today. The matters to be decided are:

The election of thirty-six aldermen, forming a majority of the next City Council.

The adoption or rejection of a proposition to abolish the town offices inside of the city.

Besides, on a separate ballot the voters will be asked to express their opinion regarding the municipal ownership of traction lines and gas and electric lighting companies, and the nomination of party candidates by direct vote of the people.

A bitter warfare has been waged by the clean government organizations against the so-called "gang" candidates, particular attention having been paid "bathhouse John" Coughlin, who now represents the richest and toughest ward in the world. Opposed by David Frank, a prominent business man to prevent fraud, Frank has had posted at various polling places college athletes. A heavy vote was cast early this morning.

## SMITH VS. SMITH AT BELOIT

Red Hot Election Contest in Progress in Line City

Beloit, Wis., April 1.—A sensation was created in political circles yesterday when circulars were distributed advocating the candidacy for Mayor of C. A. Smith, as against Simon Smith, the present incumbent, and the only nominee whose name will appear on the printed ballot. No opposing ticket had been put in the field, and it is too late for the printing of new ballots. Sunday the ministers made a strong appeal in the pulpit for C. A. Smith on the ground that the present mayor had not enforced the law. They advised people to scratch the name of one Smith and insert that of the other Smith.

Beloit, Wis., April 1.—More interest is being taken in the city election today than for years and the vote promises to be the heaviest ever polled. The present mayor, Simon Smith is up for re-election and opposed to him is C. A. Smith, brought out by the industrial element. Both factions have issued copious printed matter and the fight is hot. Every carriage in the city has been pressed into service to carry voters to the polls. Another hot contest is between J. A. Love, regular republican nominee and J. Kane Wickham, independent candidate for city treasurer. Wickham's election is generally conceded, but the count only will determine the contest.

## G. A. R. REPORT ON PENSION SYSTEM

Commander-in-Chief Torrance Outlines Veterans' Attitude Toward Commissioner H. Clay Evans.

Minneapolis, Minn., April 1.—Judge Ell Torrance, commander-in-chief of the G. A. R., just back from conference with the president on pension matters, says the report of the G. A. R. Pension committee was submitted to the president over a week ago. It will not be made public for some little time. Judge Torrance, discussing the report said:

"The committee found no fault with the pension laws as they now exist, but rather with the manner in which the laws have been construed and administered by the Pension Bureau. Conservative Grand Army men believe, and with good cause, that great injustice has been done to many deserving and worthy claimants."

"The atmosphere of the Pension Bureau has been such as to create an impression that a great many frauds are attempted by the old soldiers, but it is worthy of note that the records show that only one old soldier out of 73,000 has been convicted of fraud against the government. Certainly that is a wonderfully good showing."

Incidentally Judge Torrance denied that he was to be made Pension Commissioner, nor was he a candidate for that or any other office.

## EGG ROLLING AT THE WHITE HOUSE

Crowd Estimated at Fully 20,000 Children and Grown Folks See the Sight.

Washington, D. C., April 1.—A crowd estimated at fully 20,000 children and grown people witnessed or took part yesterday in the egg-rolling festival in the White House grounds—one of the annual "sights" of the capital. Gustly, cloudy weather, broken by a snow flurry and several showers of rain did not interfere with the frolic.

The marine band gave a concert during the afternoon but the great attraction of the day was the presence of the Roosevelt children, gamboling on the sward with the multitude of youngsters. Archibald and Kermit enjoyed a part of the morning in the merry games of rolling eggs and "picking" them, but little Archibald came to grief by seating himself comfortably in a puddle.

He seemed to enjoy the experience but Mrs. Roosevelt is mindful of the fact that her eldest son, Theodore, has only just recovered from a severe attack of pneumonia, and the youngster was recalled to the sheltered precincts of the White House and not permitted to return during the day.

## TO FIX ON RURAL MAIL BOX

Committee Is Named to Settle Matter by Postmaster General Payne

Washington, April 1.—Henry C. Payne has appointed a commission to report on the subject of mail boxes on rural delivery routes and the commission, which consists of the rural delivery inspector for the Western district, the postmaster at Nashville, Tenn., and the postmaster at Bridgeport, Conn., will meet in Washington today.

Their report will probably settle the question of whether a uniform letter box shall be used on all routes, either to be provided by the government or individuals.

At present a choice of fourteen styles of letter box is given to patrons and the system has caused some dissatisfaction.

## INVESTIGATING THE BRIBERY CHARGES

Committee Appointed by Lower House of Congress in Danish West Indies Matter, at Work.

Washington, April 1.—The committee appointed to investigate the charges of bribery of congressmen in connection with the sale of the Danish West Indies began taking testimony this morning. The first witness was Neill Gron, who brought the alleged transactions of Capt. Christmas to Chairman Richardson. He said that members of the Danish parliament read to him the secret report, and that he came to the United States in the interests of persons opposed to the sale of the islands. It was his intention to bring the matter before Roosevelt so that the appropriation required to consummate the sale could be stopped. The papers were taken to Hay who sent them back with the word that the state department could take no action.

## Swedish Laborers for Canada.

Christiania, Norway, April 1.—Laborers to the number of 2,000 are being hired here by an American congressman for railroad work in Canada.

## Plague Situation Growing Worse.

Simla, India, April 1.—The plague situation is growing worse in the Punjab, where 70,000 deaths are reported monthly.

## French General Election April 27.

Paris, April 1.—At a council of the ministers, President Loubet signed a decree fixing the general election for April 27.

F. C. Hutson and family have moved from 23 Milwaukee avenue to the Morely house, 5 Gore street.

## PEACE IN AFRICA DRAWING NEAR

Meeting Between Steyn, Delary and Schalburger Is in Progress.

## BOTHAMAY ATTEND

Boers in Kimberley District Send Flag of Truce, Asking for Terms.

## KRUGER IS GIVING IN

Pretoria, April 1.—The meeting between President Steyn, General Delarey and Acting President Schalburger is expected to be arranged shortly, Delarey and Steyn having been located.

It is also reported that Commandants Alberts and Hans Botha have called meetings to discuss proposals for a general surrender. Commandant Dellivers, who has been operating in the Kimberley district, has sent a flag of truce, asking for terms.

Military operations continue despite the peace movement. The British are believed to have a thousand of Dewett's men in a cordon in the Northwest Transvaal.

Surrenders are daily occurring in the Standerton district. A party of constabulary and native scouts were ambushed near Heidelberg, Sunday, and six of the party were killed.

## Important Boer Meeting

The Hague, April 1.—Kruger, Dr. Leyds and the Boer delegates in Europe are expected to hold an important meeting at Utrecht, tomorrow to consider the situation in view of Acting President Schalburger's peace movement. Well informed people here say that General Schalburger was evidently influenced by the receipt of news of the result of the Dutch note to Great Britain on the subject of peace in South Africa and other dispatches sent him from here.

## Thirty-Nine Killed

London, April 1.—The war office today published a list of 39 killed and 45 wounded in a railway accident near Barborthon, Eastern Transvaal, on March thirtieth. All the victims were British soldiers.

## GASOLINE LAUNCHES ON ROCK RIVER

This Season Promises To See Many New Boats—Tendency Toward Up-River Athletics and Sports.

This season promises to see many new gasoline launches on the river. For some years there has been tendency towards up-river sports and the present season will see much more attention paid to them than ever before. Many of these private resorts are being put in shape now for the summer and promise to make the finest places of the kind in this vicinity. The old Idlewyle grounds are being put in shape and an other private camp on the opposite side of the river is undergoing many improvements. This latter place is one of the finest on the river as it has the advantage of having many fine springs and enormous shade trees. An island in front of the camp is connected with the main-land by a rattle bridge and makes the prettiest camp on the river.

It is expected that there will be many new boats added to the already large number on the river during the season. At present Capt. Alex. Buchholz is constructing a craft which will be at the service of the public this next summer. Besides this, several new private gasoline launches will be put on the river soon. Already the river bank in the vicinity of the railroad bridge is becoming dotted with new boat-houses for the accommodation of the new crafts.

William S. Paddock of the town of Beloit was a city visitor today.

## ICE TAX LAW KNICKED OUT; IS DECLARED UNCONSTITUTIONAL

Decision Handed Down by the State Supreme Court Today—Opinion Was Rendered by Justice Marshall—Order the Discharge of Defendant.

Madison, Wis., April 1.—(Special.)—The right of the state to impose a tax on ice shipped out of its borders is denied by the supreme court in a decision handed down today in which it declares the law passed by the last legislature imposing a fee of ten cents a ton on ice shipped out of Wisconsin to be invalid.

The question turns on the state's ownership of its navigable waters, and on this point the opinion written by Justice Marshall, says the mere naked title rests in the state, but the whole beneficial use thereof is vested in the people of the state as a class. The state can not more appropriate to itself the ice formed upon its navigable lakes or other navigable waters, than one person can rightly appropriate the property of his neighbor against the latter's will and pass the title to bargain and sale or otherwise to a third party.

## STORM LOSSES ARE VERY HEAVY

Wind and Snow Continues in Many States, Causing Damage.

## OHIO STATE SWEPT

Casualties in the East Are Said to Number Over Sixty Dead.

## HARD ON RAILROADS

The storm Sunday and yesterday damaged eleven churches in western Pennsylvania. It completely wrecked the Knoxville Presbyterian Church and almost equally damaged the Robinson Run Presbyterian Church at McDonald. The injured in these church destructions number over sixty, of whom five or six will die.

In Ohio the storm continued into yesterday with greater damaging effect than on Sunday. At Columbus wires are down in all directions and plate glass windows were burst in, while Cincinnati reported last night that from many points in the Ohio river valley came news of low temperatures, with frosts and destructive winds. Sunday night there were many fires caused by lightning. The wind and those winds are dangerous to five miles an hour.

Although the stacks, chimneys, steeples, wires and even roofs through out western Pennsylvania were topped, tangled or blown to pieces by the Easter wind, the local weather stations in every case report no higher wind velocities than thirty miles an hour, from which it may be deduced that it was a twisting, wrenching wind and that winds are dangerous for quality as well as rate.

The floods expected in the Middle South as the result of Easter's downpour are on hand, but in many places the worst is over. New Orleans has again complete communication with the world outside, the first time for two days.

The Pacific trains on both the Great Northern and the Grand Pacific are not expected to get into St. Paul until late today or early tomorrow morning. Yet be complete openness of both lines was proclaimed last night.

While the snow in North Dakota is light, it is badly drifted and consequently impedes travel of all kinds seriously.

Nebraska last night reported bad weather and nipping cold for plants.

## LOSS IS OVER \$4,000,000

Great Damage Throughout the Stricken Southern Districts

Nashville, Tenn., April 1.—Latest reports of the destruction wrought by floods in the different counties in the middle and eastern division of the state indicate that the losses will aggregate \$4,000,000.

So far as known, the number of lives lost is more than twenty-five. The actual number will be known only when the streams recede. The worst of the danger is now past.

Authentic figures place the number of families affected by the flood at Harriman at twenty-five. Of these fifteen are totally destitute. Ten families lost a portion of their effects. Only three houses were totally destroyed, twenty-two residences being more or less damaged.

Thirty-five families at Oakdale, one mile from Harriman, are destitute, and twenty-five other families are in need of assistance.

## Enters Beet Sugar Field.

Detroit, Mich., April 1.—Charles B. Warren, representing the American Sugar Refining company, has purchased some stock of the Peninsular Sugar company. The purchase indicates the intention of the American Sugar Refining company to enter the beet sugar business.

## EDUCATORS MEET IN CAPITAL CITY

Fourth Annual School of Instruction for Institute Conductors in Session at Madison.

Madison, Wis., April 1.—One hundred and twenty-six educators from all parts of the state attended the first day's session of the fourth annual school of instruction for institute conductors, which opened in the High school building yesterday. The sessions will continue until Friday.

L. D. Harvey, state superintendent of public instruction and chairman of the normal school regents' committee on institutes, is conducting the school. Only those who have attended these schools and been licensed by the state superintendent are allowed to conduct or assist in conducting county institutes for teachers.

Both morning and afternoon sessions are held. The time is devoted to addresses and discussions of subjects of especial value and benefit to persons about to engage in institute work this year. Superintendent Harvey spent considerable time in explaining methods of work outlined in a pamphlet which he recently got out for institute conductors.

Others who assisted him today were Miss Anne H. McNeill, state library clerk; Prof. C. E. Patzer, Milwaukee; Prof. E. W. Walker, Superior, and Prof. W. C. Hewitt, Oshkosh.

## Author of "Ben Bolt" Dead

Newark, N. J., April 1.—Thomas Dunn, the English author of "Ben Bolt" died here this morning.

## BABCOCK GIVES UP HIS TARIFF FIGHT

He Says Situation in Trade Has Changed Since His Bill Was Introduced.

Washington, D. C., April 1.—Representative Babcock of Wisconsin authorized the statement today that the fight for a revision of the tariff on made goods is ended so far as he is concerned. He will make no effort to enact his bill reducing the protective tariff on the products of the steel trust.

"I have learned," said Mr. Babcock that conditions are greatly changed since I introduced my bill. Instead of the steel trust exporting great quantities of its products it is now importing large amounts of material which is turned into the finished product and again exported. It would be exceedingly ill-advised to urge any change in the tariff under these conditions."

Mr. Babcock's assertion is verified by the last report of the bureau of statistics. Manufacturers are now importing daily more than \$1,000,000 worth of material for their factories. They are exporting nearly as much of the finished product.

## HANNA WOULD AID RATHBONE

Report That Senator Will Endeavor to Have an American Trial.

Washington, April 1.—A morning paper says that Senator Hanna proposes to introduce a bill which will provide for the trial of Estes G. Rathbone, recently convicted in Cuba of frauds in connection with the Cuban postal service, before a court in the United States under American law and American methods. The senator believes in Rathbone's honesty, notwithstanding his conviction, and claims that under our laws evidence not admissible under the Cuban procedure, will aid Rathbone.

Havana, April 1.—Estes G. Rathbone appeared before the supreme court under a writ of habeas corpus. "Senor Lanuza, counsel for Rathbone, pleaded that his client was entitled to bail under the postal code. He said that the Audencia court, in explanation to the supreme court of its order to arrest Rathbone, said that besides its reasons for Rathbone's arrest and the denial of bail in his case, mentioned in the order, it had private information that Rathbone wished to escape. Senor Lanuza expressed regret that the Audencia court was not bound to make this declaration under oath.

The fiscal of the supreme court denied that Rathbone had a right to bail, and he asked the court to fix his bail at \$100,000 if it decided to grant it.

## More Deaths from Cholera.

Jedda, Arabia, April 1.—During the last week there were 329 deaths from cholera at Jedda and sixty-one at Jedda.

## Gen. Sir Andrew Clarke Dead.

London, April 1.—Gen. Sir Andrew Clarke, agent-general for Victoria, Australia, is dead. He was born in 1824.

## BIGAMIST NELSON SENT TO PRISON

Missouri Man Pleads Guilty to Having Three Wives, and Is Given a Penitentiary Sentence.

St. Joseph, Mo., April 1.—C. C. Nelson, who was brought here from San Antonio two weeks ago, charged with bigamy, pleaded guilty to having three wives yesterday afternoon and was sentenced to three years in the penitentiary. Nelson came under the jurisdiction of the St. Joseph courts by reason of his marriage here last September to Mrs. Mary Parker of Plattsburg.

## SANTA BARBARA IS BEAUTIFUL

Mrs. Brand Writes About the Famous California Summer Resort.

## IN PRUNE DISTRICT

Where the Mountains and the Ocean Meet, a Grand Display Is Made.

## GREAT IS CALIFORNIA.

Long Beach, Cal., March 27.—Beautiful Santa Barbara by the sea is justly one of the most celebrated resort cities in California and when we left Pacific Grove and its surroundings of fascinating interest it was with the determination to take advantage of the stop-over privilege on our tickets at once before reaching Los Angeles. There is no limit to the number of times this stop-over privilege can be used west of the Missouri river, providing the final destination named in the ticket is reached inside of two months from the date on which the ticket is sold. This of course applies to the nine-months round-trip tickets as the special excursion tickets issued for three months or less have a much shorter limitation.

Immensity of California

The ride through the state via the coast line, which has but recently been opened to the public, is one of varied interest and gives one a slight idea of the immensity of California and the great variety of its attractions, its industries and its possibilities. It is 432 miles from San Francisco to Los Angeles and for about two hundred miles the journey lies through the Santa Clara valley, the great prune district of the state. We passed great ranches of the rather small leafless trees and in all the towns and cities along the line large fruit packing and shipping houses extended along the railroad track much as the tobacco warehouses do at home. About 150,000 acres of land are devoted to raising prunes and plums in the state.

Between the prune growing district and the luxuriant beauty of well developed Southern California lies a vast extent of desert lands, dreary wastes where the eye rests only on the dusty grayish green of low sage brush and chaparral with occasional clumps of thorny cactus raising grotesque forms high in the air, silent sentinels of the plains. Occasionally horses and cows were seen grazing and among the number there were several of what are known as buffalo cattle—a mixture of buffalo and cow. The largest drove of these peculiar cattle are kept on the hills in the neighborhood of the seventeen mile drive near Monterey and are easily distinguished by the rough shaggy hair around the head and shoulders and the tuft of long hair between the horns. The head and shoulders look very much like those of a buffalo and the buffalo cattle are generally dark brown or black in color.

Mountains in Background

Whatever the foreground of a California picture may be, whether the dreary desert or the luxuriant plenty of the cultivated valley there are always the mountains in the background, sometimes wrapped in the purple haze of distance and sometimes rearing their bold heights close at hand.

The two great ranges, gashed with immense canyons, traverse the entire length of the state from north to south, sending out side ranges until one crosses five distinct ranges in travelling from San Francisco to Los Angeles. Bleak and bare most of the mountains are immense monuments of rock on which there is but little vegetation.

Winding around the sides of these rocks, curving back and forth until one can see the tracks over which he has just passed, hundreds of feet below, climbing over snow capped summits or breathlessly diving through long tunnels made through the solid rock, catching glimpses occasionally of fertile valleys and picturesque country homes or pretty little villages, and finally coming sharply in sight of the deep blue of the great Pacific ocean, the ride is certainly an inspiring one, full of novelty and charm.

## Coast Line Railroad

The mountain ranges gradually approach closer to the ocean until finally the rocks rise in precipitous heights out of the foam of the breakers that dash wildly against their feet. The coast line railroad lies as much as possible between the mountains and the sea and for one hundred miles the cars speed along within sight and sound of the salt water. There are places where the road bed for the rails has been cut out of the solid rock and one looks up at bleak mountain peaks close at hand on one side and down on the foam capped breakers on the other.

The first glimpse of the ocean is gained at Surf, seventy miles above Santa Barbara and the water is scarcely out of sight until the tracks curve inward from the coast at San Buena Ventura, thirty miles below Santa Barbara.

In spite of the fact that a persistent fog-box on the mail car delayed the train continually while a heavy down pour of rain set in towards evening, the ride was one ever to be remembered. The storm was at its worst when we reached Santa Bar-

Santa Barbara the sun rose bright and beautiful on a paradise-like land, freshened and sweetened by its bath of the previous evening.

## Curio and Art Stores

We stopped at the Arlington, the leading hotel of the place, a great rambling building surrounded by a park in which palms, shrubbery and brilliant flower beds were artistically laid out. Roses clamber over the porches and callas border the walks and one's sense of the artistic is constantly being delighted with some new beauty. Across the street from the hotel are several of the curio and art stores in which the city abounds. Many of the stores are exceedingly picturesque, being designed after the buildings of other nations. Chinese, Japanese, Moorish, Spanish and Mexican architecture has been employed to make artistic settings for the display of wares which proves so enticing to the tourist and the souvenir hunter that one needs the courage of a Spartan to keep from being bankrupt.

It was the last week in January when we were in Santa Barbara but among the delicacies on the excellent table set at the Arlington were fresh strawberries, deep red in color and delicious in flavor. The strawberry season really closed at Christmas and will not open in its full glory for a week or so yet but there is no time of the year when fresh berries cannot be supplied if there is a demand for them by people who are willing to pay fancy prices.

## City of Santa Barbara

Santa Barbara is one of the most beautifully kept cities in California. The people realize the natural advantages of the city's location with both the mountains and the sea for next-door neighbors and the art of man has been used with lavish hand to supplement the work of nature. Modern buildings in the business part of the city, which is surprisingly extensive, denote a progressive spirit and prosperity. There are many handsome residences and the grounds are almost without exception well kept. Roses and violets are grown in lavish profusion and one of the prettiest sights to be seen anywhere is a fine hedge of geranium bushes about five feet high, neatly and uniformly trimmed, making a solid mass of dark green leaves and great bunches of bright red blossoms.

One of the oldest and prettiest bushes; characteristic of Southern California is the poinsettia, the flower of which is quite the fad at present, being used extensively in painting and embroidery. The flowers crown the top of long stems and lie flat with the blossom parallel to the earth. They are immense blossoms, being from one to two feet in diameter and are composed of a single row of large oblong petals, flaming red in color set around a large center, like the petals of a daisy. A large bush covered with dozens of these blossoms makes a brilliant lawn ornament and adds effective dashes of color to the landscape.

## The Pepper Tree

The pepper tree is another agent which lends itself generously to beautifying Southern California. These trees grow to be immense in size and when well-trimmed are unusually graceful. The foliage is lacy and fern-like and the smaller branches are supple and bend downward like those of the weeping willow. Mingled with the fern-like drooping leaves are large clusters of bright red berries. The clusters resemble grapes in shape and size but the berries are like currants, although the red is not so deep, being more of a pink. Many of the broad avenues of Santa Barbara are bordered with these trees which in a few weeks will be covered with clusters of delicate white blossoms.

The beach at Santa Barbara is a favorite resort for the people and the large bathing pavilion stands back from the water's edge. Near the bath house is a pretty little park plentifully supplied with seats while a long pier runs far out into the sea to receive passengers from the large steamers. There are many pretty drives around the city and stage and trolley rides up through the rugged mountain passes are a great attraction of the place. Horse-back riding is exceptionally popular, this being the case in many parts of the state, and the sign "Bridle-path" is frequently seen marking the entrance to some shady lane or narrow mountain trail.

## A Great Winter Resort

Many wealthy people from the northern part of the state winter in this beautiful city and it is also one of the chief centers of tourists. In the day-time life is all out-door, but in the evening the large parlors and the long dining-room, where dances are held on the polished floor to the music of an orchestra seated in an overhanging balcony, are the centers of sociability.

There is but little regard for conventionality and pleasant acquaintances are quickly and easily made. The conversation is always opened with an inquiry as to what state the traveler hails from and it is with a great deal of pride that one sees the respect and pleasant associations which the reply, "Wisconsin," seems to inspire. Missouri and Kansas are held in most profound contempt and he who claims them as his home is looked upon with pity. But Wisconsin never fails to receive some very pretty compliments. Indeed one party from New York delighted me by being very enthusiastic in their praises of my home state. "Why," said one of the party, "you don't need to run away from home for pretty scenery. You have so many beautiful lakes and rivers and such a pretty wooded and hilly country all through the state. Then there are the Dells and Devil's Lake. We have traveled quite a little and I don't know of a day's ride that I ever enjoyed more than the one through Wisconsin over the Chicago & Northwestern from Chicago to St. Paul. It was in the autumn and the leaves were all red and gold. I remember especially there was such lots of woodbine and sumac in the northern part of the state and it was the brightest red. I certainly think Wisconsin is one of the prettiest states I ever visited."

## AMUSEMENT NOTES.

"The Climbers" by Mr. Clyde Fitch, which will be seen for the first time in this city tonight, at the Myers Grand, is a drama of contemporary New York life. The story tells of a New York family which consists of Mrs. Hunter and her three daughters, one of whom, Blanche, is married. The efforts of this widow and her youngest daughter, backed by a coterie of their own, to live a fashionable life in a frivolous and rather fast set furnish the satirical comic interest of the play. In the contrast is the figure of Blanche Sterling, the married daughter, who strives to lead a noble life, in spite of a bitterly disappointing marriage. She is tempted on every side to lower her ideals but in the end she is shown to have raised her standard of life rather than lowered it.

Marguerita Sylva's triumphs and operatic conquests are of too recent occurrence and are too fresh in the public mind to call for any particular comment here. All that should be necessary to whet the appetite of local theatre-goers is the announcement of her early appearance in this city. Certainly, there is no more "taking" figure on the American stage today than Miss Sylva. People who have heard "Miss Bob White" say that it greatly surpasses its composer's "The Little Tycoon" which had such a prosperous life. The play appears at the Myers Grand on Friday April 14th.

Manager Myers of the Myers Grand wants it distinctly understood that Amelia Blumham is not a member of "The Climbers" company which appears here tonight. The famous actress owns the company and the play. It is composed of first class talent and has been highly praised wherever it has appeared.

Edwin Booker leaves Saturday of this week for Sauk county where he expects to spend a few weeks on his farm in that vicinity. Mrs. Booker is already there.

The supper given by the men at Christ church last evening was a success, under the supervision of Chief Cook McKee; his sweet bread salad will be remembered by those who tasted it for some time. The attendance was large and dancing after the supper was enjoyable.

"The Village Postmaster" which enjoyed a run at the 14th Street Theatre, New York, of 227 nights, and 100 nights in Boston, and has just concluded a run of 125 nights in Chicago, where it was the one big success of the past season, will come to the Myers Grand on Friday, April 14th.

"The Village Postmaster" promises exceedingly well. It is a picture of rural New England life as it was lived during the administration of Franklin Pierce. The central figure is a local mail official who is also the general store keeper, the Captain of the Militia, perpetual candidate for minor political honors, and in short a sort of p-o-bah of the town. The story begins on the morning of Training Day, a time familiar to the elder generation, when every law-abiding citizen was compelled to assemble for drill. Every line in the piece is said to be true to life and to the period.

The happy man is the successful man; the man who makes everybody else happy is the happy man, and Dr. Crane's Quaker Tonic Tablets bring happiness to thousands of American homes. For kidneys, liver, indigestion, headaches and constipation. In all the world no cure so sure. All drug stores fifty cents.

## Telephone Linemen Strike.

The linemen in the employ of Jones & Winter, who are putting in a telephone system at Rockford have struck following the lead of the ground men who went out day before yesterday. The franchise granted to the firm calls for union labor so the men feel confident that their demands will be met by the firm. The men want \$2.50 for eight hours' work for the linemen and 20 cents an hour for the groundmen. Jones & Winter are the ones who constructed the Rock County Telephone system in use here.

## First Ball After Lent

The first ball after Lent was given last evening at Assembly hall by St. Patrick's T. A. and B. society. There were about 100 couples present and all had a good time. On the wall back of the orchestra was a large portrait of St. Patrick and on either side an American flag. Appropriate mottoes were above and below the picture. Some excellent music

was furnished by Cadwallader's orchestra of five pieces. This is one of the youngest bands in the city, but the boys can furnish good music.

Through Drawing room and Tourist Sleeping Cars daily. Personally conducted twice a week. Apply to agents Chicago & Northwestern Ry.

## FARM POINTERS

Excessive accumulation of fat about the heart and lungs of a pig causes the thumps. It retards circulation and results in general stagnation of the blood. It is usually a result of too rich nursing and too little exercise.

The boy who is expecting to be a farmer should learn to do all kinds of farm work. The blacksmith does not say that he can't shoe a horse, or sharpen a plow, but he says he can do anything belonging to his trade. Then let a farmer stack grain, dig the drains, shear sheep and learn to do any and everything that is liable to come up in his experience. We have many farmers who cannot stack grain, a great many more who cannot shear a sheep, and there are thousands who have never seen a tile drain dug, much less engaged in the digging of one themselves.

The free rural delivery now serves four millions of patrons. By June it will be serving five millions. The Postmaster General estimates that within four years it will be serving twenty-one millions of people. Talk about this popular thing losing ground.

Drilling corn is not popular, and I doubt if it ever will be while corn is grown for the grain. When drilling is practiced too much grain is put in and there is a tendency to growth of stalk, which is more conducive to fodder and silage than for grain. Another trouble with drilled corn is the added difficulty of securing sufficient moisture of a dry season and a tendency to growth of weeds in a wet season.

I can well remember when my first impression was not very favorable to the taste of celery and olives. Now I eat them with a relish. The former is good for the nerves and since I am not very nervous I do not need it, but it is pleasant to the taste. All of my folks can eat tomatoes but myself and none of them can eat olives and we are each other wondering at the taste the other possesses.

About three million of dollars is invested in the manufacture of oleomargarine, and the singular fact is noted that the product of the business seldom appears in the retail market with a label whereby the purchaser may know that he is getting the genuine article. The modesty and retiring nature of oleomargarine, when duly attired for exhibition, is deserving of a monument of brass, or something of that sort.

More attention has been paid to keeping straw the past winter than for many years. Some farmers have found out the feed value of straw that never knew it before. I expect to see more straw stacks in the future and fewer straw piles to rot down only for fertilizer or to be in the way of crops in the spring.

## ROCK PRAIRIE.

Rock Prairie, March 31.—Miss Helen Menzle closed her winter term of school in district No. 3, with an entertainment last Friday evening. Mr. Robert Menzle assisted her with the violin and the Misses Schoemaker with the mandolin and guitar.

A large number of the friends and neighbors of Mrs. S. L. Gurnley gathered at the house of her daughter, Mrs. Frank Wilcox and pleasantly surprised her last Thursday evening. The hour of the Wednesday evening prayer meeting has been changed from seven o'clock to eight o'clock. It will meet at Wallace Lamb's this week, with Mrs. Beaton as leader. Miss Lela Orent, of Walworth is spending the week at I. D. Crosby's. Mr. Robert Barlass is the delegate appointed from the U. P. church to attend the Presbyterian convention at Caledonia.

Mrs. Fred Rumph and daughter are slowly improving.

## MARVIN HUGHITT WILL NOT RESIGN

Denies the Report That He is About to Retire in Favor of a Vanderbilt.

President Marvin Hughitt of the Chicago and Northwestern railway, who has denied with characteristic brevity that he is to resign in favor of William K. Vanderbilt, has been in fact, if not technically, the head of that great system since 1872, though it was not until 1887 that he was elected to the presidency. Prior to that time he had been successfully general superintendent and general manager.

The story of Mr. Hughitt's life for half a century is almost synonymous with that of the development of the railroad and telegraph of the west. He began at the "key" in the first Morse company at Auburn, N. Y. It was during the war, as train dispatcher of the Illinois Central, that he first attracted notice as a railway manager.

He then became successively general manager of the Pullman company and of the Chicago & Milwaukee road. Mr. Hughitt is recognized as one of the country's greatest railway men.

## TOWN OF JANESVILLE

School closed in District No. 3, Friday, for a vacation of one week. In the afternoon a fine program was given by the pupils.

Miss Ethel Whitney will spend her vacation at Whitewater.

Miss Stella McCarthy, Earl Davis, Allan Welch and Roy and Lester Church, also have a vacation from the city schools.

David Burns returned to his home in Mason City Saturday night.

B. W. Little and family spent Easter Sunday at the home of George Brown in the town of Center.

Fred Risch spent Thursday with Charles Bennett and family.

Mrs. Bessie Van Gilder is the guest of relatives in the town of Bradford.

A. H. Burns is in Chicago at the Presbyterian hospital. An operation was performed Friday and word was received that it was a success and that he was resting easy.

Mrs. Joseph Bennett has been having some mason and carpenter work done.

## Spring Medicine

Is of the greatest importance. This is the most critical season of the year, from a health standpoint.

It is the time when you imperatively need Hood's Sarsaparilla.

It will give you a good appetite, purify and enrich your blood, build up and steady your nerves, overcome that tired feeling, give mental and digestive strength—in short, will vitalize your whole being, and put you in perfect health.

Don't delay taking it.

Don't experiment with others. Get that which trial and test have proved the best—

## HOOD'S Sarsaparilla

Best for Spring—"I have taken Hood's Sarsaparilla when needed for several years and would not be without it in the house. It is an excellent medicine and I heartily recommend its use in the spring and at any time when a blood purifier and tonic is needed." Mrs. F. M. Foorz, 21 Irving Place, Passaic, N. J.

Spring Fever—"I have taken Hood's Sarsaparilla for my spring medicine for years and have always found it reliable and giving perfect satisfaction. In the spring it takes away that tired feeling or spring fever, gives energy and puts the blood in good condition." Miss Ernie Colomex, 1335 10th Street, N. W., Washington, D. C.

WE KEEP THE QUALITY UP

## The Stamp of Honesty.

There is a satisfaction in money spending when the article bought bears the stamp of honesty. To have you feel that this is a thoroughly reliable store, to have you feel that the goods are reliable and the prices just, has been our ambition since this business began.

Many have tried and tested our business methods, and as a result are firm friends of this store. Many may not as yet have tested these methods; these we invite. You'll find this a good liberal broad gauge shop to trade in—a store that works to win.

## CARPETS Rugs, Draperies

Perhaps the most important department in the store during the next sixty days. The big fresh lines of standard makes of Carpets are all here. So are the Rugs, so are the Lace Curtains and Draperies. Prompt service in making and laying Carpets if selected now; not quite so much prompt after the rush starts, but fairly prompt at that. It pays, however, to make your Carpet selections early. Great bargain of the year.—the TAPESTRY BRUSSELS CARPETS and BORDERS of which we bought 150 pieces and the closest figure was made to us because we could handle the quantity. Our price while they last, 65c. They are worth 80 to 90c today.

Never in our history could we show a more complete stock than we are showing this spring. Over \$2,000 worth of Gowns, Drawers, Skirts and Corset Covers received this month. Extra values in Gowns, Skirts and Drawers at 50c. Beautiful Skirts trimmed with tucks, lace or fine embroidery, never had better at \$1.00. Good Corset Covers at 10 & 15c. Children's Drawers, 15 and 25c. Our Drawers and Corset Covers are world beaters, they go at 25c. All of the Muslin Underwear we handle is made under sanitary conditions and guaranteed non-sweatshop.

Many a Miss is right now thinking about what she is going to wear to graduation. This store can lend valuable aid to any one in doubt about what to get.

## NEWS OF THE COUNTY

## MILTON

Milton, Wis., April 1.—The dedication and banquet at Good Templar hall on Thursday was the event of the week and the attendance and patronage indicated that many not connected with the order feel an interest in the work of the local lodge. The receipts from the dinner and supper aggregated about \$150, which is to be devoted to paying indebtedness on the hall. The address of Chief Templar Clarke of Ripon, Wis., was listened to by an audience that testified of the capacity of the hall and we hear only favorable comments on the effort.

Elam P. Coon of Utica, a student here, in attempting to get off a moving freight train at Waukesha, Thursday night, fell into a cattle guard, fracturing his skull and receiving other injuries on his arm and back. He was taken to the hospital in that city and on Friday his father brought him to this village. He is doing as well as could be expected and unless there are unexpected developments will soon recover. L. E. Bliss and W. E. Rogers, who accompanied him on the trip were not injured in alighting from the train. The boys took a freight train from here for White-water, but as it did not stop at that place got off at Waukesha and boarded a west bound freight for home. The brakeman told them the train did not carry passengers and they must get off at the crossing when the train slackened speed. They did so with the result that in the darkness Coon alighted in the cattle guard, while his companions were more fortunate.

The friends of Moses Crossley and family who moved to Albion this week tendered them a reception at the Seventh-day Baptist church parlors on Saturday evening. As a slight testimonial of respect a handsome chair was presented.

Mrs. E. L. Davis is at Madison visiting her son and friends.

Mrs. G. L. Cary has opened her millinery parlors in the building owned by Mrs. F. A. Clarke.

Mrs. Jennie Belknap and Mrs. E. M. Dunn visited Milton relatives and friends on Friday and Saturday. Mrs. Belknap is to make Minneapolis her future home. Mr. Belknap having located there to take charge of the branch of the Creamery Package Co.

The Good Templars dinner was too much of a good thing for many who partook. The consensus of opinion seems to be that the roast beef caused the bowel trouble that resulted.

Miss Elsie Richey spent her vacation in the Cream City.

Mrs. J. C. Lane of Merrill Park visited her Milton relatives recently.

J. E. Hutchins and Miss E. E. Campbell were married Wednesday evening at the home of President Whitford. They will reside here.

Dr. Sutherland of Janesville made a professional call here Thursday.

George Sholes delivered a nice bunch of hogs to Vincent & Hassenger Friday. The lot averaged 313 pounds and he received \$6.25 per hundred.

Miss Grace Rood of Madison is visiting Milton relatives.

The remains of Clark McCulloch, who died at the County Asylum, were brought here for burial on Saturday afternoon.

W. A. Clark has gone to South Dakota to look after land.

The next meeting of the Harmony W. C. T. U. will be held on Thursday, April 3 with Mrs. Myrta Grau.

Herbert D. Whitford of the National Home is in town.

## CLINTON

Clinton, March 31.—On Tuesday, March 25th, William Stewart, who had probably resided in this vicinity longer than any one man, was called to the home beyond, after an illness of about two years duration. Mr. Stewart was born in Summerville, N. Y., June 1st, 1836, coming to Rock County with his parents in 1843, where he has since resided and was well known. Since the first stroke of paralysis two years ago, he has suffered several slight attacks, a final one causing his death. He was married in 1859 to Miss Susan Latter, who with eight children survive him, having lost two boys and a girl in infancy. The living are Mrs. T. C. Niskern, of Allens Grove; Charles K. of Chicago; Hayden T. of Madison; Edward, Mark, Ray, Zola and

**A FATAL MISTAKE!**

It's a fatal mistake to neglect backache.

Backache is the first symptom of kidney ills.

Serious complications follow. Doan's Kidney Pills cure them promptly.

Don't delay until too late. Until it becomes diabetes—Bright's disease.

Read what a Janesville citizen says:

Mrs. N. J. Casey, of 100 Prairie Ave. says: "Doan's Kidney Pills proved better than any other medicines I took for my kidneys. These organs troubled me off and on for some years. Backache was the chief symptom and often caused me to suffer severely. I tried a number of remedies but continued to grow worse instead of better. I was finally persuaded to try Doan's Kidney Pills and procured a box at the Peoples Drug Co's. store. I only took them a few days when I felt better. Should there be any recurrence of my trouble I now know what to use."

For sale by all dealers. Price, 50 cents. Foster-McMunn Co., Buffalo, N. Y., sole agents for U. S. Also on sale at King's Pharmacy.

Remember the name Doan's and take no substitute.

Mrs. Susie Watts, all of Clinton. The funeral was held at the home in Summerville, three miles east of Clinton, Thursday, March 27, and was largely attended. Rev. Wm. Moore conducted the service.

A wedding of more than usual interest, occurred at the home of Mr. Eugene Benedict, on Wednesday, March 25th. The contracting parties being Rev. James Whitelaw, of Ashland, Wis., and Miss Harriet Benedict, late of Japan. The ceremony was performed by Rev. W. L. Curtis, brother-in-law of the bride, assisted by Rev. W. W. Curtis, of Oberlin, Ohio, and Rev. Wm. Moore. Mr. and Mrs. Whitelaw are widely known throughout the state, he being general missionary for the Western half of the state. The bride is a graduate of the Beloit High School, afterward teaching in Janesville and other places. Ten years ago she went to Japan as a missionary and teacher, returning two years for rest. The sincere wish of hosts of friends for success in their field of work, will accompany them to Ashland, their future home.

Through Passion week, services were held each evening in the Congregational church. Rev. Hubbel, of Elkhorn, occupied the pulpit Monday. Rev. Moore, of Edgerton, Tuesday; Rev. Wilder, of Delavan, Wednesday; Rev. McLellan, of Milton, Thursday and Rev. Wm. Moore, Friday.

## Dyspepsia Cure

Digests  
what you  
Eat

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pittsfield, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

## BANKING AND CURRENCY.

Currency conditions in Wall Street, the recognized money center, are in a peculiar condition at the present time. Owing to the active demand of business, the bank reserve is extremely low, and while no trouble is anticipated on this account, yet the position is uncomfortable. This shortage of currency to meet the demands of a large volume of business, is due to the fact, that the National banks of the country, are steadily diminishing their notes of issue, and this is likely to continue, as there is no inducement under the present stringent laws for them to adopt a more liberal policy.

Why is it that congress hesitates to grasp this important question, and deal with it intelligently, is a question that is awaiting an answer. Henry Claws, the New York financier, sums up the situation as follows:

"No help seems likely from national bank circulation, which is showing a steady diminution; the high price for Government bonds, induced by Treasury purchases, tempting their sale, and the calling in of circulation. Thus our unscientific currency system is again proving its incapacity for meeting varying conditions. In this connection it is proper to invite attention to the Fowler Currency Bill reported by the committee on currency and banking. It provides a banking currency based upon assets, amply protected and supervised, and capable of automatic expansion and contraction according to the demands. With such a system in force we should be protected against the extremes of redundancy and contraction; and all the evils attendant on such conditions. At present we are at certain periods in danger of excessive ease in money, which promotes dangerous speculation; with a suitable currency system in existence such danger would be reduced to a minimum. Two Presidential elections have been won on the promise to give the country a sound and modern currency system; but nothing has been accomplished thus far except to announce our adherence to the gold standard. Such trifling with public opinion for political expediency may prove a boomerang to the party which persists in such blind inaction. The wisest thing Congress can do is to provide the country with a modern up-to-date elastic currency system before business depression revives prejudice and renders intelligent action impossible. A good banking and currency plan would do much to soften financial difficulties when they come; while the absence of such a system will seriously aggravate disaster."

The bonded debt is reduced to such an extent that government bonds are not maturing fast enough to take care of the treasury surplus. As a result the treasury department is unable to relieve any currency stringency that may arise, by using funds to redeem bonds.

Progress has been so rapid and prosperity so general, that the country has outgrown its present banking system and while it has everything to recommend it in the way of safety, it is deficient as a source of issue. It is possible to retain the safety feature and remove some of the restrictions. When this is done, through Senator Fowler's system, or some other equally practical, the country will enjoy the benefits of elastic currency, that will readily adapt itself to requirements. Congress should deal with the important question, before adjournment.

## PRACTICAL EDUCATION.

The work of Booker T. Washington at the Tuskegee College, is so intensely practical, that it is entitled to every encouragement. The German Colonial Economic Society, has established a Colony at Togo in West Africa, for the cultivation of cotton. The natives are extremely ignorant, and so the management sent to Mr. Washington a year and a half ago, for three young men, to organize the work and develop the industry. The

venture promises to be successful and a second installment of students from Tuskegee has just gone to Africa to engage in the work.

While Germany has taken up this enterprise as a matter of business, it contains great possibilities for the African race, and Mr. Washington may find in it an outlet for many of the students, while the south may discover a Colony that will be helpful. If there is any school in the country worthy of endowment, it is the Tuskegee school. Mr. Washington is working along practical lines for the betterment of his race, and working with such a degree of intelligence, that marked success is crowning his efforts. The race problem is one of the most perplexing, affecting the North as well as the South. Mr. W. Washington has discovered the solution, and the influence of his work will be felt for good.

## GREAT IN ONE THING.

General Miles furnishes another striking example of the fact, that the average man is not large enough to spread over unlimited territory. The army and navy have furnished a number of examples of this class during the past few years. Dewey, Sampson, Hobson and Funston, were all of them great officers, and entitled to all the fame that gallant service brought to them, but the minute they enter the arena of the civilian, and aspire to distinction, it is soon discovered that while great in their own department of work, they are below the average, in unexplored fields.

General Miles is impressed with the notion that he should be permitted to go to the Philippines and not only reconstruct the army, but the government as well. He assumes to know more about conditions than the President and congress. He should be delegated to stay at home, and doubtless will be. It requires more than naval and military knowledge to make a statesman, just the same as it requires more than a college education to make a business man. A man may be a good lawyer and a poor merchant, an excellent preacher and a poor financier. These conditions are perfectly natural, and they could not well be otherwise.

The trend of thought along certain lines, necessary to success in any calling, is so absorbing, that both time and disposition are lacking for other interests. The men who win marked success in any line of work, are usually content to retire on their laurels. The army and navy should cultivate the same ambition.

The Cement Post Factory is secured and the city has occasion to rejoice. The people will soon be ready to take hold of another enterprise, and the air is full of rumors. Some 200 cities competed for the post enterprise, some of them offering a site and \$10,000 in money. Industries are in active demand, and they contribute largely to the prosperity of any community.

Cecil Rhodes, the South African diamond king, who recently died, leaving his fortune of \$75,000,000 to England, to be used in educational purposes, reveals a side of his nature that had not been discovered. He was very proud of his country, and possessed an ambition that the young men of England should be educated along practical lines, so as to compete more successfully with other nations.

Senator Hanna has set at rest the gossip concerning his candidacy for the presidency in 1904, by saying that he is not a candidate. President Roosevelt will very likely succeed himself. He will have some enemies, but his administration is vigorous and wholesome. He is the president in fact as well as name, and the people like him.

In spite of half a corn crop last year, the loss is more than made good in prices, both of corn and beef. The farmers in the corn belt have more money than with a full crop at average prices, and as many of them are stock raisers, they get a double benefit. Secretary Wilson attributes the high prices of beef to the short corn crop.

The Mormon church, with its 3,000 missionaries in all parts of the world, is gaining a strong foothold. It is no longer a question of Utah. The church has started out to establish a world wide religion, with polygamy left out of the creed. With plenty of money and zeal, success is not among the impossibilities.

Floods in Northern Dakota, are unparalleled. On the line of the Northern Pacific all traffic is suspended. Civilization appears to have conquered the drought, and populism has expired, a natural death. With plenty of rain and a good crop of republicanism, the state should prosper.

Kentucky has a young woman who aspires to a seat in congress. She proposes to make her campaign on the prohibition ticket, and with \$40,000 of her own to invest, she thinks that she can win. She don't say just how she expects to spend the money, but it won't be for drinks.

If repeaters can be restrained and common sense controls, Milwaukee will elect a republican mayor.

Results at Madison today will be watched with interest. Whatever may be the outcome, the ranks of LaFolletteism, have been invaded, and con-

servative republicanism will have some support in Dane Co.

The young women of Kenosha are so attractive, that "Jack the Kisser" annoys them on the street.

Have you voted? If not, the polls are open until seven o'clock.

## PRESS COMMENT.

Local Enterprise: Hon. John M. Whitehead is a grand man, and as governor of Wisconsin would give the people an administration which would be as nearly perfect as possible. Even the most zealous partisans of the half breed cause admit that.

Geneva Herald: It has been a long hunt and a hard one on the part of the LaFollette-Stephenson organ in Milwaukee, but so far as finding anything with which it could smear the character of John M. Whitehead is concerned a complete failure. Reporters have been sent into every nook and corner of the state by the organ with instructions to dig and dig deep to find something. They have all returned with but word—failure.

Clintonville Herald: He kissed the babe and rubbed the heads of Sam and Sue, he swore the twins were beautiful and wished he had two—that don't count. He asked about the corn bread which he vainly tried to chew and forthwith begged the recipe; of course that tickled him—but that don't count. But just before he left he stopped and winked, closed up his jaw, and slipping out behind the barn he took a drink with Pa—and that's what counts.

The Hartland News: Everyone remembers that Whitehead, two years ago retired in favor of LaFollette and harmony under a promise from the friends of the governor we would have peace. The result is a matter to appear to need discussion. If LaFollette was a good republican and not for LaFollette first and last, he would in view of the outcry against him, step aside. Harmony can be restored in this way and this way alone.

Oshkosh Northwestern: The Janesville Gazette attempts to start a boom for Hoyt A. Winslow of Fond du Lac for the Republican nomination for railroad commissioner. The Gazette also notes that Fond du Lac has been handicapped in the past by proximity to Oshkosh, but declares that the Republicans in the former city are feeling very independent this year and will demand their share of party favors.

## POINTED PARAGRAPHS.

Atlanta Journal: Somebody suggested that we might adopt the beet sugar as our national flower.

Birmingham News: The Kentucky Legislature has adjourned and the price of firearms and poker chips has accordingly dropped 20 per cent.

Atchison Globe: What has become of the old-fashioned father who took a whip and held heart-to-heart talks with his son out in the barn?

Boston Traveler: The Rockfellers will receive only \$11,000,000 in April dividends on Standard Oil. Poor fellows! Let's start a subscription for the unhappy pair.

Chicago News: The average man never fully realizes the truth of the adage about a fool and his money until he has bumped up against some other man's game.

Pittsburgh Dispatch: Now Pierpont Morgan has taken a \$2,500,000 mortgage in Chile. Any back countries that remain unacquired should put in their claim for signal fame.

Washington Star: Tal An is deserving of some sympathy as a woman who is compelled to study the open-door question when she ought to be giving her attention to Easter bonnets.

Minneapolis Times: Muchfuss is the rather appropriate name of a Hoboken gentleman who knocked two sanitation attendants senseless, ripped the iron bars from his cell and leaped to liberty.

## Green County.

One scheme of LaFollette and his men is to secure control of the Legislature of 1903, when a United States senator is to be elected to succeed John C. Spooner. As there is no other man in the state with the experience and ability of Senator Spooner, it is not to be wondered at that a large majority of Republicans refuse to be coerced into giving up a man who has such a national reputation as a statesman and who reflects so much honor upon our state in the nation's legislative halls.

If an attempt is made in this county to secure delegates in favor of a candidate opposed to John C. Spooner, such a candidate should be turned down. There isn't a question of doubt a large majority of the Republicans of the county favor Spooner's re-election and we want to know the candidate for the assembly is a Spooner man.

All conservative Republicans believe the party to be greater and of more importance than the opinion of any one man. It is a well known fact that Governor LaFollette is not on friendly terms with Senator Spooner and desires to see one of his followers succeed him.—Monroe Journal.

## Tale of Two Counties.

In Dane and Rock Counties the clash of battle is heard far and wide, the spring election excitement augmenting the continued agitation over state politics. LaFollette men have organized to take Rock County away from Whitehead because it is his home and Rock will be the keystone of the Stalwart arch; and are met by all the power of the conservative forces.

The latter in turn are making a determined effort to destroy Governor LaFollette's machine in Dane County. LaFollette's home, and yesterday were pleased over a victory in Dunkirk, where the Republican nomination for chairman has been secured by a stalwart.

It is said nearly every active republican in the two counties named is either on one side or the other.

## HENRY T. WRIGHT DIED AT PORT SAID

A Cablegram Announcing the Sad News, Received by Relatives Yesterday—A Veteran Paymaster.

Mrs. Edward Rucker received a letter yesterday from her sister, Mrs. Lizzie Deakin of Philadelphia, containing the sad intelligence of the death of their brother, Pay Director Henry T. Wright. A cablegram to relatives in New York was the first announcement and the particulars are not known. He was due to leave Manila for New York via the Suez Canal, March 3, and at that time was threatened with typhoid fever. The supposition is that this disease caused his death. Mr. Wright was in Janesville about a year ago, in company with his wife, enroute for Hong Kong via San Francisco. He was sent out by the navy department to check up the fleet in eastern waters. His work was completed and he had planned to come home by the eastern route when stricken by death.

Henry Taylor Wright was born in Syracuse, New York, February 6, 1843. He was the youngest son of Josiah and Cella B. Wright. While yet a boy the family moved to Wisconsin and located in Janesville. When the war broke out he enlisted in the 12th Wisconsin battery, and was later transferred to the quartermaster's department, where his ability as an accountant was soon recognized. At the close of the war he enlisted in the regular navy, and from the position of a clerk was steadily promoted until he gained the rank and title of paymaster, which position he has occupied for the past 30 years. He traveled extensively in all parts of the world and his assignments on shore included the San Francisco, Washington and Brooklyn navy yards. His last work before going abroad was in connection with the Brooklyn yards, where he was appointed as pay director of the entire navy. He was the oldest ranking officer in the department and his long experience and intelligent service commanded the respect and highest regard of his associates.

In the death of Henry T. Wright the navy has lost one of her brightest and most efficient officers. To the family and circle of friends, who enjoyed the pleasure of his genial, kindly presence, the loss will be keenly felt. Many Janesville people remember him as a boy. His career was watched with interest and his home visits from time to time, have been occasion for happy greetings and pleasant associations. He combined with rare common sense and broad intelligence, a disposition that won its way, and his friendship was noted for loyalty.

In June, 1888, he was married to Miss Julia Spicer of New York City. His wife was with him on his last trip. Aside from the wife, two sisters, Mrs. Elizabeth Deakin of Philadelphia, and Mrs. Edward Rucker, of this city, and one brother, J. T. Wright of the First ward, are left to mourn. Generous sympathy will be extended in their great bereavement.

A letter received by relatives from New York today, says that Pay Director Henry T. Wright died suddenly at Port Said, March 28, while enroute for New York.

## JOHN S. ANDERSON CAUSES AN ARREST

Former Well Known Janesville Man Brings a Suit Against S. S. Small in Chicago.

Sanford S. Small, a wealthy resident of Minneapolis has been arrested in Chicago charged with larceny as bailor. John S. Anderson, a real-estate dealer, residing at 3633 Vernon avenue, is his accuser. Anderson alleges that Small made away with bonds and mortgages worth \$25,000, which were the property of a Chicago man. Small denies the charge and says Anderson has caused his arrest to annoy him.

Anderson, according to Winston & Munro, his attorneys, asserts that in 1898 he met Small in a real-estate transaction and loaned the Minneapolis man \$5,000, taking bonds and notes as security. Later, according to the lawyers, Small came to Anderson and said he could buy from R. G. Peters of Manistee, Mich., 37,000 acres of Alabama land which could easily be disposed of at a great profit. Small is alleged to have borrowed the securities he gave to Anderson and other negotiable paper for the purpose of buying this land. The loan included a \$5,000 mortgage and a \$11,000 trust deed on property at the northwest corner of Cottage Grove avenue and Fort-First street.

John S. Anderson is well-known in Janesville where he operated in real-estate for many years. He has a brother, Dr. Anderson, living at Ordville.

### Success of Erminie Assured

The rehearsal of Erminie last night was simply immense, and the work of the chorus more than satisfactory. Mrs. Learned's beautiful voice seemed an incentive for the balance of the company to do their best. Everyone is loud in their praise of the work being done, and our lovers of opera can look forward to a rich treat. Several new musical numbers will be given, the dialogue has been enlarged upon and new dances throughout will predominate. There is no doubt but what "Erminie" will be the swell event of the season.

## VERY LIGHT VOTE BEING CAST TODAY

Not Much Interest in the Local Elections—Results Cannot Be Guessed Now.

From all indications the vote polled today for city officials will be extremely light when compared to previous years. The various politicians have their carriages out looking up voters but claim that it is almost impossible to get them out. This is in a large manner due to the disagreeable weather of the last few days. But in spite of the lightness of the vote indications show that it is the democrats who are the ones who are staying at home. This is noticeable in the Fourth ward where the vote polled up to one o'clock today is only half as large as polled at the same hour in the last election.

It would be impossible to make an accurate guess of the probable results this afternoon. There is a great deal of splitting going on. The friends of Tallman believe that he is making a good run and may slip in to the surprise of many.

There is a hot contest for alderman in the Second ward and the indications appear to be favorable to Dr. Mills. In the race for treasurer Mr. Fathers is easily the favorite.

The indications also point to the election of W. S. Jeffris to be school commissioner-at-large.

The vote in wards and precincts as compared with a year ago is as follows:

	1901.	1902.
First Ward—		
First precinct.....	121	61
Second precinct.....	213	102
Second Ward—		
First precinct.....	104	101
Second precinct.....	103	120
Third Ward—		
First precinct.....	220	183
Second precinct.....	177	154
Fourth Ward—		
First Precinct.....	210	150
Second precinct.....	270	177
Fifth Ward—

## SAYS FILIPINOS ARE ALL COWARDS

Ray Ward, Ex-Member of Co. G, Thirtieth Regular Infantry, Has Just Returned from Manila.

Ray Ward, an ex-member of Co. G, Thirtieth regiment, regular infantry, late of the Philippine islands, was in town this morning on his way to the home of his mother, Mrs. Eva Ward of Broadhead.

Mr. Ward will take a course in Beloit college to complete his education. He spent nineteen months in the Philippines and his company was in many skirmishes with the Filipinos but had no severe battles.

He describes the Filipinos as cowards and states that they will not fight in the open at all. They will lie in ambush and fire one or two volleys from their rifles and then scamper away like a lot of frightened sheep.

Mr. Ward has one of the Filipino bolos, a kind of short, heavy sword, which the men handle with great dexterity being able to throw them accurately a considerable distance. In close quarters the bolo is used with deadly and terrible effect, the American soldiers dreading the bolo quite as much as they do the rifles in the hands of the natives.

Mr. Ward also has a valuable coin, it being a Spanish dollar coined in the year 1771, one hundred and thirty-one years ago. He has had several good offers for the coin by Americans, but he holds it at a high figure.

Mr. Ward regards the war in the Philippines as practically over, but states that there will be some bushwhacking for several years.

Died at Broadhead. Dr. E. H. Dudley was advised today of the death of Mrs. John Young of Broadhead. Mrs. Young has many friends in Janesville. Her maiden name was Maria Grant. She was born in New York in 1833 and was married to John Young in 1852. In 1858 she came to Wisconsin with her husband and located in Broadhead, where the family has since resided. The Young House of Broadhead was built by her husband who conducted it for many years. Mrs. Young was an estimable lady, possessing many graces of character, that won for her a warm place in the hearts of a large circle of friends, who sincerely mourn her loss. Beside a husband, three children remain. Mrs. Edward Lyons, Mrs. Frank Vance and Miss Florence Young; all of Broadhead. The funeral will occur at one o'clock on Friday.

Philomathean Club Tonight. The Philomathean club is to be entertained this evening at the home of Mrs. A. S. Pond. The guests are invited to be on hand for a course supper and to be in some comical costume. The supper is to be served in courses and after which a purely April Fool's supper will follow which it is safe to say that none of the club have ever before experienced. The menu for this supper will contain all the delicacies of the season beginning with blue-points on the half-shell and ending with apple pie with cheese and coffee. After the supper have been disposed of the guests will be entertained with games suitable to the evening.

Tomorrow, Wednesday. Archie Reid & Co. will sell handkerchiefs. An importer's sample line, no two alike. Supply your needs for the summer. See ad. page four.

Masonic Notice. There will be a special communication of Janesville Lodge No. 55, Wednesday at 9:30 a. m., for the purpose of attending the funeral of our late Brother Richard Winston. All Masons are invited. F. W. DOUGLASS, W. W.

Enjoy life and go to the Y. P. S. dance, Monday evening, April 7, at Assembly hall.

## CARPENTERS ARE ALL ON A STRIKE

Contractors and Workmen Could Not Agree on the Question of Minimum Wages.

Nearly every journeyman carpenter in this city is idle today and the question as to how long they will remain idle is unanswered.

When the carpenters' strike was settled last year it was generally understood that a committee representing the contractors and builders should meet a committee from the carpenters' union to settle the question for the year 1902, soon after the first of January, 1902.

The matter remained unsettled up to last evening when a committee, representing the contractors and builders, consisting of William Blair, Ed. Donahoe and Ed. Kelly met a committee from the carpenters, consisting of Frank Hall, A. C. Hager and Mark Mathews.

All questions were settled except that of the minimum wage, the contractors contending for a price of 20 cents per hour and the carpenters held out for 25 cents per hour. The meeting broke up without any agreement, although the carpenters were willing to agree to 22 1-2 cents per hour.

This morning the most of the carpenters about town who had been working refused to go to work until the matter is settled. There are a few union carpenters working today, owing to the fact that they were not notified of the action of the two committees last evening.

Both sides are talking the matter over today and the committees are to meet again to try and settle the matter. There is little or no ill feeling on either side and it is thought the matter can be amicably settled and work resumed with little delay.

GAZETTE OFFICE TO GIVE RETURNS

The Gazette office will be open tonight to receive returns from the city and outside places.

TO THE PUBLIC. I am pleased to recommend Dr. C. W. Bliss, my successor, as a skillful practitioner. Dr. Bliss is a graduate of the Milwaukee College of Osteopathy. Mrs. Florence Nightingale Belknap, Vice-President San Francisco Round Table, and a Prominent Member of Pentecost Church of that City, Cured of Fearful Female Troubles by Lydia E. Pinkham's Vegetable Compound. Read Her Letter.

"DEAR MRS. PINKHAM:—I wish to thank you for the benefit your medicine has done me; I cannot speak too highly in praise of it. After my child was born I was left in a very bad condition. I flowed three weeks out of the month; I suffered for months, and finally consulted three physicians. Two of them said I had a tumor, and the third one said I was going into consumption. I was sick and tired, and could not perform my household duties. Finally a friend urged me to try Lydia E. Pinkham's Vegetable Compound. I really had no faith in it, although I had often heard of its wonderful cures; but the fact was I had no faith or interest in anything any more. I finally decided to try it; after the first bottle I felt immensely better, and after taking the sixth bottle I was entirely cured, and felt like a new woman. I consider it woman's friend, and would never be without it in the house. O, what a lot of misery and suffering could be avoided if all women only knew of the wonderful power of Lydia E. Pinkham's Vegetable Compound to cure their ills."

## PANAMA OFFERED TO UNITED STATES

Colombia Submits Protocol Consenting to Sale of French Canal.

INCLUDES NEW CONCESSION

Offers Perpetual Lease of Necessary Land and Agrees to Legalize Sale to This Government of All Rights Which Old Company May Have Had.

Washington, April 1.—The Colombian government has at last submitted to the United States a direct and comprehensive proposition for the construction of the Panama canal. This proposition is in the form of a protocol of a treaty to be concluded between the United States and Colombia. It embraces:

1. An entirely new concession to the United States, irrespective of the old concession to the Panama Canal company of France.

2. The Colombian government consents to and legalizes in every way the sale of the Panama company's property to the United States, removing all question as to the validity of the title.

3. Colombia proposes to grant the United States control, through perpetual lease, of a strip of territory amply wide for canal purposes.

4. All questions of police and sanitary control are satisfactorily adjusted.

5. The proposed treaty takes cognizance of the existing treaty between the United States and Colombia, which binds the United States to preserve the freedom of transit through the isthmus of Panama, and this obligation is continued.

As to the price asked by the Colombian government great secrecy is maintained at the state department, as well as by Dr. Concha, the Colombian minister, and Attorney Cromwell of New York, representing the Panama Canal company, who assisted in preparing the protocol. It is understood, however, that Colombia has asked for an annual payment of about \$1,000,000, a sum nearly equal to the estimated difference in the cost of maintaining the Nicaragua and Panama canals after completion. This price, however, is Colombia's offer, and may be regarded as a basis of negotiation. It will probably be considerably reduced.

### Senators Discuss Olen.

Washington, April 1.—During the entire session of the senate the oleomargarine bill was under consideration. Mr. Simmons (N. C.) said the enactment of the bill would destroy many oleomargarine factories and render practically valueless many millions of invested capital, and it would also seriously affect growers of cotton seed and cotton seed oil, and also the large growers of cattle and hogs.

Mr. Mitchell (Oregon) expressed himself as favorable to the bill and as hearing on the subject he requested the publication in the Congressional Record of an article on the so-called beef trust, which appeared recently in a New York newspaper. The request was granted.

Mr. Dillingham (Vt.) presented a legal argument in support of the measure, and vigorously arraigned the manufacturers of oleomargarine for imposing, as he said, a fraud upon the people.

In supporting the bill Mr. McCumber (N. D.) expressed the belief that the farmers were entitled to the protection afforded by the bill. Incidentally, he advocated pure food legislation.

Mr. Proctor (Vt.), in charge of the bill, said it was his purpose to accept the amendment offered by Mr. Harris (Kan.) placing a tax of 10 cents a pound on adulterated butter and regulating the sale and manufacture of renovated and process butter.

Mr. Lodge, chairman of the committee on Philippines, reported the bill temporarily to provide for the administration of the affairs of the civil government of the Philippine Islands. He said in submitting the report that he hoped to call up the measure for consideration at an early date. Mr. Rawlins (Utah), of the same committee, offered an amendment to the bill, in the nature of a substitute for it, the gist of which has been published. It represents the view of the minority of the committee.

Among the bills passed was one providing an additional circuit judge in the seventh judicial circuit. The customary executive session preceded adjournment.

### Sundry Civil Bill.

Washington, April 1.—Consideration of the sundry civil appropriation bill was begun in the house and general debate was ended before the close of the session. Little of the speechmaking was pertinent to the bill. Messrs. Williams (Miss.), Pou (N. S.), and Splight (Miss.) spoke on the proposed investigation of the southern franchise question. Mr. Bell (Col.) discussed the financial bills before the house. He also discussed the growing influence of the senate and the retrogression of the house as a factor in legislation. He declared that as deliberative body the house had ceased to exist. It was controlled now, he said, by a few men, and the greatest trust in the country to-day was the legislative trust.

Mr. Cannon, chairman of the appropriations committee, who is in charge of the measure, in a brief preliminary statement, explained that the bill carried \$49,323,935, being \$12,455,

\$42 less than the estimates and \$12,572,012 less than the current law. He called attention to the fact that the taxes collected are reduced. Last year \$41,000,000 of war taxes were removed and this year \$70,000,000 will go, making a grand total of reduction in revenue in two years of \$111,000,000.

With regard to the project of beautifying Washington by a vast park scheme, to cost ultimately \$200,000,000, Mr. Cannon said that the committee had recommended the policy of having the District of Columbia pay half of the cost and proceeding no faster than the district was able to go. The pending bill carries \$70,000 for this project.

Mr. Payne, chairman of the ways and means committee, reported the Cuban reciprocity bill and gave notice that he would call it up Tuesday of next week.

### Candidates for Foreign Posts.

Washington, April 1.—Henry White, at present secretary of embassy at London, is the latest candidate for the vacancy in the Italian embassy to be created by the retirement of Ambassador Meyer. Mr. White is strongly urged by Senator Lodge. He was secretary of the embassy when Mr. Hay was ambassador, and consequently he has a warm friend in the secretary.

Bellamy Storer, now minister to Madrid, is to go to Berlin as ambassador, to succeed Andrew White, when that officer retires, which probably will be next fall. The only contingency which may defeat Mr. Storer's aspiration in this direction lies in the attitude of the Ohio senators toward his promotion; if they are jointly opposed they may defeat the proposed appointment.

Mr. Storer's retirement from Madrid will leave a vacancy there, which rumor connects with the name of Henry Clay Evans, the retiring pension commissioner, though this is not yet assured.

### Sampson's Condition Unchanged.

Washington, April 1.—Reports were in circulation here that Admiral Sampson's condition has taken another turn for the worse and that the end was near, but it was learned upon inquiry that his condition is unchanged, and he takes his outdoor exercise regularly, weather permitting, as has been his custom for some months. At his residence it was stated that he was down to dinner. It is conceded that he never will regain his health, but no new untoward developments have occurred very recently.

Few people can understand the feelings of the pugilist as he is being counted out. He hears the seconds ticked off. He struggles to rise, but struggles in vain. He has lost the fight.

There are some who are making a losing fight for life that can appreciate this; those whose lungs are diseased. With every tick of the watch, they know that they are being counted out.

The great question is how can a quick rally be made to continue the fight against disease? Many who have asked that question have found a satisfactory answer in the use of Dr. Pierce's Golden Medical Discovery. It cures bronchitis, obstinate, deep-seated coughs, hemorrhage, night-sweats, emaciation, and other conditions which if neglected or unsuitably treated may find a fatal termination in consumption.

"When I commenced taking Dr. Pierce's Golden Medical Discovery," writes Mr. T. Reed, of Jefferson, Jefferson Co., Ark., "I was very low with a cough, and would at times spit up blood. I was not able to do any work at all, was weak and my head was dizzy. The first bottle I took did me so much good that I had faith in it and continued until I had taken twelve bottles. Now I do not look like nor feel like the same man as I was a year ago. People were astonished and said they did not think I could live. I can thankfully say that I am entirely cured of a disease from which had it not been for your wonderful 'Discovery' I would have died."

There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

## TWENTY-TWO DIE IN SOUTHERN MINE

Great Loss of Life Caused by  
the Explosion of Gas in  
Tennessee

### TEN BODIES ARE TAKEN OUT

Carelessness in the Handling of Fuses  
by the Firemen Believed to Have Re-  
sulted in a Blown Blast and Ignition  
of Dry Coal Dust.

Chattanooga, Tenn., April 1.—Twenty-two lives are known to have been lost and eight men were injured, one fatally, as the result of an explosion of gas in the Nelson mine of the Dayton Coal and Iron Company at Dayton, Tenn. Ten bodies have been taken from the works. Most of the victims were whites and left large families.

The dead: White—Lark Hunter, Alex. Taffer, James Franklin, Tom Shaver, James Harris, P. G. Travis, Colored—George Griffiths, Ben Griffiths, Reese Dean, Norris Piersoll, Morgan Smith, John Robinson, J. E. Hill, Bryant Smith, Mack Foust, six unidentified men.

Fatally injured: W. T. Head.  
Seriously injured: James Riley, Will Pressnell, Wm. Scarbrough, Arthur Hughes, Tom Cummings, Henry Gonyon; all white, and George Warford, colored.

The explosion occurred at about 5 o'clock. Gas was known to exist in the mine, and the men were required to use safety lamps. It is the rule of the company for the miners to place their fuses ready to be lighted for blasts just before quitting work each day and there are workmen known as "firemen" who go through the mine after all the miners are out and set off the blasts.

The miners quit work at 4:30 o'clock. It takes them about forty-five minutes to get out of the mine. Two "firemen," Lark Hunter and John Harney, are supposed to have caused the disaster by firing blasts before all the miners could get out of the mine. They were both killed. It is supposed that one of the fuses was defective and resulted in what is known as a "blown blast."

The flame shooting out from the blast ignited the gas, which in turn ignited the accumulation of dry coal dust in the mine. The explosion that followed was terrific. The sheds at the mine entrance were wrecked. Three men were killed while standing outside the mine and two seriously and one fatally injured.

The Nelson mine has been the scene of two serious explosions in the past. In 1889 four men were killed and eight seriously injured by an explosion of gas.

Dec. 20, 1895, an explosion of mine dust occurred in which twenty-eight lives were lost. This was caused by a miner carrying an open lamp contrary to regulations.

In May, 1901, an explosion of a similar nature occurred in the Shallday mine, operated by the same company, in which twenty-one lives were lost.

### Indiana Peach Crop Ruined.

South Bend, Ind., April 1.—According to various reports made by fruit growers the peach crop for St. Joseph county and the surrounding territory is killed. After carefully investigating the conditions of the fruit and shrubs and trees and berry plants it was ascertained the outlook for apples, pears and cherries is good. Plum trees have been slightly damaged, and the crop is uncertain. The strawberry plants were found to be in poor shape. The prospects for raspberries and blackberries are fair. Until the recent storm there was a good outlook for a splendid peach crop, but now it is reported that the fruit is injured not only in this county, but in all parts of northern Indiana and southern Michigan.

### Americans Invade London.

London, April 1.—Out of the unusually large number of passengers coming over to Europe on the Kaiser Wilhelm der Grosse, over a hundred came to London. About 9 o'clock on Thursday the cry, "Man overboard!" was heard, but, though the boat was promptly stopped and a search made, the man was never seen again.

### Seize Cargo of Sealskins.

Seattle, Wash., April 1.—About \$50,000 worth of sealskins were seized by the local United States customs officers, who went aboard the schooner J. B. Ward, which arrived some days ago from Unalaska. Two hundred and twenty-six skins were consigned to local houses. They are of the Bering Sea product.

### Boundary Surveyor Returns.

Valparaiso, April 1.—Capt. Dickson, one of the special commissioners appointed to survey different points of the Argentina-Chile boundary, returned here after having finished his task of surveying the northern limits of the disputed territory.

### Fund for Mrs. Altgeld.

Chicago, April 1.—Friends of the late John P. Altgeld are at work raising funds for his widow by subscription. They have undertaken to supply her with cash for her needs for the rest of her life. Just now they hope to make the fund reach a total of \$20,000.

### Boatsmen Land Arms in Persia.

Bombay, April 1.—It is asserted that the Russian subsidized steamer Koronoff, on her last visit to the Persian gulf, landed 60,000 rifles at Bender Abbas, a seaport of Persia, on the Persian gulf.

### A Baby's Birth

is very much like the blossoming of a flower. Its beauty and perfection depends entirely upon the care bestowed upon its parent. Expectant mothers should have the tenderest care. They should be spared all worry and anxiety. They should eat plenty of good nourishing food and take gentle exercises. This will go a long way toward preserving their health and their beauty as well as that of the little one to come. But to be absolutely sure of a short and painless labor they should use

### "Clothcraft"

is the trade-mark name of a new line of strictly all wool Men's and Young Men's Clothes. The suits and overcoats put out under this label can safely be called the best that can be made.

"CLOTHCRAFT" CLOTHES are made by The Goldsmith, Joseph, Feiss Company of Cleveland, Ohio.

This Company has for years enjoyed a reputation among the trade as the most conscientious makers of men's clothes in the country.

The line of "CLOTHCRAFT" CLOTHES is just the best clothing that this famous house knows how to make. It is made in their own clean factory with the most modern facilities, by the most skilled workmen that money can employ, and under the most favorable conditions.

Every garment bearing the "CLOTHCRAFT" label is guaranteed all wool and the guarantee of the makers is as good as a U. S. Bond. We are the exclusive agents of this line of men's and young men's clothes and cheerfully add our guarantee. We not only guarantee that the goods are all wool, but that the fit and finish are superior to any line of men's and young men's clothes ever sold for anything like the price charged for "CLOTHCRAFT."

Suits and overcoats of the "CLOTHCRAFT" brand can be had from \$10.00 and upward.

We have a limited number of handsomely gotten up Style Books showing some of the leading "CLOTHCRAFT" styles. You can have one of these books free if you will call for it.
